This seminar is designed to help you:

- Review characteristics and examples of successful resiliency.
- Examine methods of helping individuals be resilient in the face of inevitable changes and loss in late life.
- Learn about the importance of building resiliency in late life.

Fee: $150; Fri, Feb 9, 9am-3pm; Program #3013-18

Managing Psychotropic Medication for Older Adults

Medication management can be extremely challenging for older adults. When adding psychotropic medications to the list, it becomes imperative to understand the therapeutic role they can play. This seminar will establish evidence-based practices for psychotropic medications to the list, including the therapeutic role they can play. This seminar will establish evidence-based practices for psychotropic medications.

This seminar is designed to help you:

- Improve your knowledge and skills in medication management.
- Learn about the importance of building resiliency in late life.
- Build confidence in your ability to communicate with dementia patients.

Fee: $150; Fri, April 6, 9am-3pm; Program #3014-18

Longevity: A Serious Health Threat for Older People

Loneliness and isolation have serious health consequences for individuals, including loss of physical function, depression, anxiety, and loss of social support, which can lead to increased use of mental health services and social isolation. These conditions can decrease quality of life and increase the risk of adverse health outcomes. The seminar will explore how to help older adults develop social connections and promote resilience.

Fee: $150; Fri, March 23, 9am-3pm; Program #3025-18

Part 1:  Effective Substance Use Conversations Using Motivational Interviewing

Interviewing (MI) is a well-established, evidence-based practice designed for such conversations. This seminar will explore how to help older adults manage their psychotropic medications.

Fee: $150; Fri, May 18, 9am-3pm; Program #3015-18

Part 2:  Part of Effective Substance Use Conversations Using Motivational Interviewing

When bringing up the topic of substance use, a delicate conversation is needed. These conversations require sensitivity and skillfulness on the part of professionals. Motivational Interviewing (MI) is a strength-based, directive approach to conversation. Research shows that this practice and achievement of fidelity (delivering MI as it is intended to be delivered) is associated with better outcomes in later adulthood. This seminar will explore how to help older adults manage their psychotropic medications.

Fee: $150; Fri, May 18, 9am-3pm; Program #3015-18

Part 3: Substance Use Screening, Brief Intervention, and Referral to Treatment (SBIRT)

This seminar is designed to help you:

- Understand the fundamental concepts, processes, and skills of MI.
- Find ways to apply MI to your work.
- Consider continued learning to achieve MI certification.

Instructor: Scott Cabell, PhD

Contact: Scott Cabell for the Wisconsin Department of Health Services.

CONTINUING STUDIES

Fee: $150; Fri, March 23, 9am-3pm; Program #3025-18

Dementia: Assessing and Addressing Challenges

This seminar is designed to help you:

- Learn about the importance of building resiliency in late life.
- Identify unique presentations of late-life anxiety, comorbid anxiety and depression, and other challenging conditions.
- Learn about the importance of building resiliency in late life.
- Build confidence in your ability to communicate with dementia patients.

Fee: $150; Fri, April 6, 9am-3pm; Program #3014-18

NEW! Certificate on Substance Use and Aging:

This seminar is designed to help you:

- Improve your knowledge and skills in medication management.
- Learn about the importance of building resiliency in late life.
- Build confidence in your ability to communicate with dementia patients.

Fee: $150; Fri, March 23, 9am-3pm; Program #3025-18

Distinguished Faculty Associate

Suzanna Waters Castillo, PhD, MSGW

Instructor: Suzanna Waters Castillo, PhD

Locate high-quality resources

Examine and compare different behavioral methods

Identify challenging behaviors and potential triggers

Some of these programs are open enrollment, some are part of a certificate program, and some are both.
