History is the record and interpretation of what has happened, and the first to do this are often the storytellers, musicians, and imagemakers of the time. Joe McHugh is an historian and public radio journalist, a gifted storyteller and old-time fiddler. Paula McHugh plays “clawhammer” banjo and mountain dulcimer. She is also a talented visual artist whose paintings are inspired by the titles of American fiddle tunes and folk ballads. Together, the McHughs combine music, stories, and projected images to help make America’s rich and complex history come alive in ways that both delight and surprise. From the War for Independence to the California Gold Rush to the Model-T Ford—these are the events and inventions that helped shape American history and make us who we are today.

“In the words and deeds of the past there lies hidden treasure that people may use to strengthen and elevate their own characters. The way to study the past is not to confine oneself to mere knowledge of history but, through application of this knowledge, to give actuality to the past.” -the I-Ching
